2. Cut out the paper strips and put them into piles—one for all of the reasons people love dad, 1 for all of the reasons people love mom, etc.
3. Punch a hole at the top and bottom of each pile strips.
4. Put a brass fastener in both of the holes to secure each pile.
5. Fan the strips outward so they form a sphere-like shape.
6. Cut and fold a green strip of paper to create a stem.
7. Secure the green paper to the top of your pumpkin with glue and let it dry.
8. Once dry, staple each pumpkin stem onto a ribbon.
9. Hang your ribbon—you're done!
